SKILLS

html5 , css, bootstrap, sass, tailwind, javaScript, typeScript, react, redux, next.js

SOFT SKILLS

- Problem-solving abilities
- Eagerness to learn and adapt to new technologies
- Effective communication and teamwork skills

EDUCATION

BCA

J.B.Knowledge Park, Faridabad

2020-2023

C.B.S.E Class 10th

Bohra Publice School, Faridabad

2017

C.B.S.E Class 12th

Bohra Publice School, Faridabad

2020

CERTIFICATES AND COURSES

- The Complete 2023 Web Development Bootcamp on Udemy.
- The Complete JavaScript Course 2023: From Zero to Expert! on Udemy.
- React - The Complete Guide 2023 (incl. React Router and Redux.

SUMMARY

Frontend Developer with a passion for crafting elegant and user-friendly web experiences. Proficient in HTML, CSS, and JavaScript, with a solid understanding of modern frontend frameworks like React and Next.js. Proven ability to create reusable components for an enterprise-level web application. Passionate about technology and building scalable web solutions.

PROJECTS

Youtube-clone

- Developed a responsive user interface for a YouTube clone website using React and tailwind.
- Implemented key features such as video playback and search functionality using React.js and React libraries.
- Integrated third-party libraries like React Router for seamless navigation and useContext for state management.
- Implemented a responsive design approach to ensure cross-platform compatibility and a consistent user experience across devices.
- Fetching used Axios for easy to manage asynchronous operations and handle responses.

Technologies used:

- HTML, CSS, JavaScript, tailwind, React, React-dom, React-player, Axios

Movie Facts

- Developed a responsive and user-friendly movie facts website, resembling the functionality of IMDb, utilizing React and scss.
- Integrated APIs to fetch movie data including titles, genres, ratings, and synopses, ensuring accurate and up-to-date information for users.
- Utilized AJAX for asynchronous loading of movie details, improving site performance and providing seamless navigation.
- Integrated third-party libraries like React Router for seamless navigation and Redux for state management.
- Implemented video playback for trailors ,Optimized website performance through code optimization, image lazy loading, and infinite scroll, resulting in faster page load times and improved user satisfaction.
- Fetching used Axios for easy to manage asynchronous operations and handle responses.

Technologies used:

- HTML, CSS, JavaScript, sass, React, React-dom, React-player, Axios, Redux, Lazy-load-image, Infinite-scroll

Portfolio

- Developed responsive and user-friendly web interfaces using React, Vite and scss.
- Implemented modern design principles to create visually appealing layouts, improve user experience and parallax features.
- Utilized CSS frameworks such as scss to streamline development, ensure consistency across multiple browsers and for animations used React framework like framer-motion.
- This website, you'll find a dynamic showcase of my skills, projects, and a direct line to connect with me. This website serves as a comprehensive snapshot of who I am and what I bring to the table.

Technologies used:

- HTML, CSS, JavaScript, sass, React, Vite, framer-motion
